IMPORTANT INFORMATION

The holiday season is a perfect time to reflect on blessings and take out ways to make life better for those around us.

Summer vacation is the most awaited time for parents and kids alike. However this time it is different due to covid-19, as youngsters are already not going to school. Thus our responsibilities get doubled to keep our children active.

We at Jaycees , understand it very well that presently our proximity to resources is limited . Considering this we have tried to keep Summer Holidays Homework simple and informative but interesting as well , so that our Little JAYCEEIANS love to spend their time in completing it.

The objective of holidays homework is to enable our toddlers work independently and also to improve their academic skills.

Here are a few suggestions for parents :-

make sure that you are spending quality time with your wards amidst this tensed environment. It is very important to keep their anxiety at minimum.

Giving them small responsibility in household chores will add them to be independent .

Teach them the importance of moral values in their life.

Motivate them to read books.

Encourage them to do one hand writing page each of English and Hindi daily.

keeping in view the prevailing situation indulge yourself in various indoor games with them .

We cannot overlook the fact that the summer holidays are the time to relax and revive . While the entire world is struggling hard in recovering from the pandemic covid-19, we together will have to make sure that our youth is least effected from the panic around.

So make these holidays memorable for them by providing a nurtured and stimulated environment at home which is full of fun, excitement and learning.
